ECO SEAL

Drain Trap Sealant & Deodorizer

ECO SEAL is a uniquely formulated, environmentally friendly sealer designed for use in waterless, no flush urinals. ECO SEAL is a non-hazardous trap sealer, that floats on water and urine, which keeps the seal in place. ECO SEAL creates a non-soluble seal of a deodorizing liquid in the trap. ECO SEAL also prevents unwanted sewer gas. ECO SEAL has been compounded with a pleasant cherry fragrance to give instant and long lasting odor relief. ECO SEAL also works well at solving odor problems from dried out traps, keeping them wet and odor free. ECO SEAL does the job, for you, the user and for the planet. Chemex Industries provides products that are environmentally safe. All ingredients used in this product are biodegradable. This product is made from 100% renewable resources. This product contains no petroleum distillates and no ozone depleters. This product is VOC compliant in all states.

Features and Benefits:

- Seals and deodorizes waterless no flush urinals, preventing and eliminating odor problems.
- Treat each urinal with 3 ounces of product per every 1500 uses, approximately every 2 weeks, depending on activity level
- Economical to use: 1 quart treats one urinal for about 5 months
- Completely safe on all plumbing fixtures
- A safe drain trap liquid for dried out and smelly drains
- Long lasting results as the product will not evaporate or freeze
- Non-hazardous, biodegradable and safe to the user.

May be used in waterless no flush urinals, toilets, floor and shower drains, sinks, condensate drains and other unprimed, dried out or unused drains.
