NET VOLUME: .75 cu ft (21.24 L)

INGREDIENTS: All-natural Earth products

One Bag Instantly Absorbs Up To 3 Gallons of Oil

NO CANCER-CAUSING CARCINOGENS!

(Like Found in Clay and DE Absorbents)

Certified Non-Leaching and Landfill-Safe

Made From Natural Renewed Byproducts

ECO>ABSORB®

ALL-NATURAL ORGANIC SPILL CLEAN-UP

Instantly absorbs all liquid spills, including household and industrial chemicals, paints, oils, automotive fluids, solvents, acids, bases, pet messes and more! Leaves no residue or slip-fall condition.

Eco>Absorb has been tested and certified to be a non-leaching absorbent. It will not leach what it absorbs.

Eco>Absorb is listed by NSF and OMRI (Organic Review Materials Review Institute) as safe to be used in food processing areas except food contact surfaces.

Eco-friendly Formula Plus
DUST FREE Clean-Up

Every Eco>Absorb clean-up experience is now enhanced by our lab-developed, proprietary composition, providing a clean solution that is dust free and still 100% environmentally friendly.

Eco>Absorb is a blend of universal all-natural super absorbents made from repurposed byproducts of the finest materials the earth provides.

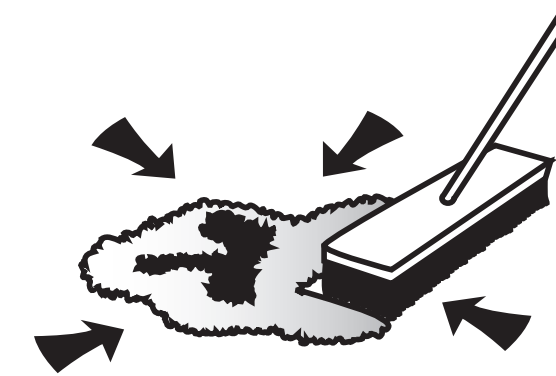

The technology is simple, yet extremely effective.

INSTRUCTIONS: THIS IS A QUICK AND EASY PROCESS | Instrucciones: Un Proceso Rapido Y Facil

1 Pour Eco>Absorb completely around the spill, creating a dam.

Derramar Eco>Absorb totalmente alrededor del derrame creando una presa.

2 Sweep Eco>Absorb into entire spill, working from the outside in.

Barrer Eco>Absorb dentro del derrame comenzando desde afuera hacia dentro.

3 Sweep away absorbed spill using proper disposal methods.

Recoger Eco>Absorb usando metodos apropiados de disposicion.

NOTE: If there is any residue left on the surface, apply a small amount on the area and firmly swirl the broom over the area until zero residue is achieved.

NOTA: En caso de algún residuo en la superficie, aplicar una pequeña cantida.

WARNING: If sensitive to inert dust, you may experience coughing when exposed to heavy concentration of airborne materials. If dust particles fall in eyes, use standard eye wash solutions or water to clean eye. DO NOT USE ON HYDROFLUORIC ACID.

ADVERTENCIA: Si es sensible al polvo inerte, usted puede experimentar el toser cuando se encuentre expuesto a una concentración pesada de materiales aerotransportados. Si las partículas de polvo caen en sus ojos, utilice las soluciones estándar para la limpieza del ojo o solo aplique agua. NO COMBINAR CON ACIDO FLOURHIDRICO.
