# MIRACOIL 2

## NON ACID A/C - HVAC CLEANER

LOWERS ELECTRIC BILLS & WILL NOT DAMAGE ROOFING MATERIALS - CLEANS DEEP

*MIRACOIL 2 works without acids. Corrosion on the surface of A/C coils can cut the efficiency and increase the cost of operating the unit by at least 10%!*

*Deoxidizes as it removes dirt and sooty soil. Spray it on and the corrosion disappears. Deep cleaning action allows the foam to penetrate deep into the coil and float out soil with no scrubbing or pressure washing that might bend delicate fins. Miracoil 2 contains no solvents to attack the roof coatings.*

- ❑ *Lengthens life of the unit*
- ❑ *Non acid formula*
- ❑ *Just Spray it on - no brushing*
- ❑ *Contains no damaging solvents*

### *Directions for Use:*

*Just spray on and then rinse off. Dilution with water depends on the build up of corrosion and soil. For the initial cleaning use full strength. Thereafter, a dilution of one part cleaner to three parts of water is generally sufficient to maintain the unit in new-like condition. Turn the system off. Then, with a low pressure sprayer, apply in a course stream (not a mist). Allow a few minutes for the product to penetrate the grime and corrosion. Rinse away the soiled material with clear water and return to service.*
