GREASE GUN A

Red Spray Grease – in a Can

Aerosol Heavy-Duty Grease Gun in a Can

GREASE GUN A is a premium grade, multipurpose, lithium-based red grease with superior performance in a wide range of industrial and automotive applications. It clings to vertical and overhead surfaces without dripping or running. This product is resistant to chemical breakdown, withstands extreme load pressures and has excellent temperature and viscosity stability from -60°F up to +500°F. It prevents water washout and withstands harsh chemical environments. It sprays as a liquid to flush off old contaminated lubricant, creeps deeply into working parts and then sets up to a viscous, thick grease that withstands acid, salt spray, and oxidation.

- Works like a grease gun in an aerosol can
- Sets up to a resistant, rust-preventing grease
- Long lasting water and detergent resistance
- Helps flush away old contaminated lubricants
- Withstands extreme pressure and temperatures
- Waterproof
- Will not drip or run
- Food Processing Acceptability: H2
- Penetrates into chains

For use on: Chain Drives, Manifold Heat Valves, Bearings, Conveyors, Gears, O-Rings, Winches, Pumps, Wire Rope, Linkages, Cams, Fittings, Threads...

Chemex Industries, Inc.
