

HEPA PRO 10

Sterling's HEPAPro 10 is a portable HEPA Vacuum offering professional features and performance at a very economical price. This powerful 2-horsepower HEPA vacuum is equipped with an individually tested and certified HEPA Filter providing a minimum efficiency of 99.97% at .3 microns. The HEPAPro 10 is a genuine HEPA vacuum that can be used for safe and efficient pick-up of hazardous materials including asbestos, lead, mold and crystalline silica. What sets this vacuum apart from the competition is the motor head includes a 50-foot power cord and an electrical outlet for convenient plug-in of power tools. It also includes power tool activation allowing the operator to use the power tool's switch to turn vacuum on and off for maximum dust control.

HEPAPro 10 exceeds EPA's Renovations, Repair and Painting Rule (RRP) for lead dust recovery.

KEY FEATURES:

- 2HP Commercial grade, 2-stage bypass motor for quick, complete recovery of most types of hazardous materials.
- 120V outlet with on/off activation of vacuum motor using power tool or other appliance.
- 50-foot power cord for working large areas without stopping to locate an outlet.
- Individually tested and certified HEPA Filter, minimum efficiency of 99.97% at .3 microns based on particle count test method, IEST-RP-CC001.
- Dacron Filter Bag prevents interruptions due to clogging and loss of airflow.

TECHNICAL SPECIFICATIONS:

Model:	HEPAPro 10
Item Number:	125-1206-20
Style:	Dry Only
Waterlift:	105"
CFM:	110
Recovery:	10-gallons
Filtration System:	Individually tested and certified HEPA filter. Secondary pre-filter Dacron bag Disposable synthetic filter bag (item #122-3200-14)
Power cord:	50-feet
Warranty:	1-year
Weight:	38 lbs.

TOOL KIT INCLUDED:

Part #	Description
122-3020-14	5' Two-piece Steel Wand
122-3010-14	10' Crushproof Hose w/Ends
122-3030-14	2" Dusting Brush
122-3060-14	17" Crevice Tool
122-3040-14-1	Floor Brush Tool
122-3050-14-1	Floor Squeegee Tool

HEPA PRO 10

Lift handle with hook: Provides cord storage and supports lifting heavy contents.

Injection molded motorhead with noise suppression: Ideal for use in public and sound sensitive areas.

Steel clamps: Secures motor head during handling and transportation.

Locking, full swivel hose connection system with button latch: Positive air seal (no leaks). Prevents hose binding.

Blow molded high-density polyethylene canister: Resists impacts, supports heavy debris and easy to lift and empty.

Four swivel casters: Superior mobility even with a full tank of water.

TESTED & CERTIFIED HEPA FILTER:

The HEPAPro10 is equipped with a "Fail-Safe" HEPA filter system that protects against discharge or bypass of dangerous dust particles from the vacuum cleaner. This modular, removable HEPA filter drops-in the vacuum body and automatically seals under suction. There is zero risk of the operator incorrectly installing the HEPA filter and accidentally causing bypass of particles in the air. Also, in the event of a failure, by rupture or the like, of the disposable collection filter bag or one of the other filter components, the HEPA filter is the final filter and it is certified to prevent any discharge of dangerous dust in the air.

The HEPA filter is individually tested and certified to be 99.97% efficient at .3 microns according to IEST-RP-CC001 test requirement.

Disposable synthetic filter bag: Item #122-3201-14
