AND CLEANS
BETTER**

**RX 101 ALL PURPOSE CLEANER
with AIRICIDE® Odor Counteractant**

In manufacturing, most liquid cleaners start as blends of powders that are dissolved and liquified. Because they start as powders, they dry to powders to leave a dulling film. RX 101 is different. It is a highly concentrated complex of LIQUID surfactants that are completely free-rinsing. It's ideal for all cleaning, but especially for maintenance of "wet-look" floors where it is formulated to penetrate and

lift heavy soil without etching the finish or leaving a film. With RX 101 you will use less product, less effort, do a better cleaning job and enjoy an extra bonus of eliminating unpleasant odors because it contains Airicide odor counteractant to change the "geometries" of odorous molecules in the air so they are not perceived as unpleasant.

Highly concentrated. Only 1/2 oz. per gallon water for many cleaning jobs.

Contains no phosphates or other builders that leave a dulling film.

Cleans floors, walls, woodwork, plastics, furniture, appliances, vehicles, etc.

RX 101 contains Airicide odor counteractant to deodorize as it cleans.

RX 101 ALL PURPOSE CLEANER

DESCRIPTION

RX 101 is a liquid, all-purpose cleaner with unique abilities in cleaning, free-rinsing and deodorizing. It is 100% synthetic for better removal of greasy, oily soil. It is highly chelated and made of liquid surfactants rather than powders to avoid leaving a film. And it contains *Airicide* odor counteractant to leave areas fresh smelling wherever it is used.

BENEFITS

NO FILM FROM BUILDERS - Completely free-rinsing. Ideal for cleaning "wet-look" floors and other high gloss surfaces where the film from other cleaners can be obvious.

NO SOAP FILM - 100% synthetic. Contains no soap so there can be no soap film even when used in the hardest water.

HIGHLY CHELATED - Insures against film from hard water. Even removes film left by previously used cleaners.

HIGHLY CONCENTRATED/HEAVY CLEANER DUTY - 1/2 ounce per gallon of water is all that's necessary for many uses.

CONTROLLED CLEANING - Removes heavy soil without removing or cutting into the finish or wax.

CONTAINS Airicide - Counteracts unpleasant odors as it cleans.

TRULY ALL PURPOSE - Use with a mop, sponge, trigger spray bottle, pressure washer or automatic scrubber to clean anything non-electrical.

USES

For no film, no rinse cleaning of polished and unpolished floors including vinyl, vinyl asbestos, asphalt tile, rubber, marble, terrazzo, ceramic tile and concrete. Cleans walls, woodwork, partitions, glass, wood, metal, leather and plastic furniture; bathroom and shower room walls, fixtures, etc. For washing automobiles, buses, trucks, etc. Counteracts unpleasant odors as it cleans.

DIRECTIONS

May be used in either hot or cold water. For damp mopping polished floors and cleaning non-porous surfaces, use approximately 1/2 ounce per gallon of water...For removal of typical soil from non-polished floors, from walls, woodwork, etc., use approximately 1 ounce per gallon of water. For heavier or greasy soil, use approximately 2 ounces per gallon of water...Only food contact items need be rinsed with potable water.

SPECIFICATIONS

ODOR COUNTERACTANT.....	Airicide
pH OF CONCENTRATE.....	11.0 ± 0.5
pH OF 1:128 DILUTION.....	8.0 ± 0.5
COLOR.....	bright blue
GLYCOL ETHERS.....	none
ALCOHOL.....	none
PETROLEUM DISTILLATES.....	none
PHOSPHATE, NTA BUILDERS.....	none
BIODEGRADABILITY.....	complete
FLASH POINT.....	none
FOAMING.....	moderate, easy rinsing
SPECIFIC GRAVITY.....	1.020 ± 0.005 gm/ml
DENSITY.....	8.50 ± 0.05 lb/gal
SHELF LIFE.....	min 2 yrs. at room temp
