

# RGP-2017 DRAIN FLY REPELLENT with ENZYMES

## Description:

RGP-2017 is a viscous liquid that clings to pipes and drains to rid them of drain fly infestations, all the while working to break down odor-causing build-up. RGP-2017 repels annoying and unsanitary drain flies with Citronella, a natural fly repellent. It also contains enzyme-producing bacteria which will multiply and digest organic waste, reduce volume of solids, and kill odors. RGP-2017 contains no acids or corrosives. It is biodegradable, non-toxic and non-caustic.

## Features:

- Repels drain flies naturally with Citronella
- Contains enzymes that digest organic waste
- Reduces volume of solids
- Kills odors
- Biodegradable, non-toxic and non-caustic
- Phosphate Free

## Directions:

### DIRECTIONS FOR USE AS A DRAIN FLY REPELLENT

For best results, apply product at time of lowest drain use, typically at the end of the day. Initially, add 8 oz. to each drain. RGP-2017 will cling to the sides of the drain pipe and allow for a constant release of the citronella fragrance to deter flies throughout the night. It is easily removed with hot water and does not pose any risk of clogging drains. Repeat daily as necessary until desired results are achieved. Then apply 4 to 8 oz. per week as a maintenance dosage.

### DIRECTIONS FOR USE AS A DRAIN MAINTAINER

Pump out grease trap, then add 1 qt. per 24 cu. ft. capacity. One week later, begin preventive maintenance schedule: At the end of the day, flush lukewarm water down each drain leading to trap for 5 seconds to clear line of harsh chemicals which can reduce bacterial activity. Dilute 1/2 pint with 1 qt. of lukewarm water and pour approximately half of the solution down each drain. Let mixture remain in drains overnight. The next morning, flush lukewarm water down drains for 5 seconds.

### DIRECTIONS FOR USE AS A URINE ERADICATOR

Simply insert a trigger sprayer into the bottle and you have a ready-to-use product which will eliminate the odors produced from the organic material and decomposed salts associated with urine. The area should first be cleaned of excess material. If the area is not moist, use lukewarm water on the area to be treated with product.

## Technical Specs:

pH	~7
Fragrance	Citronella
Color	Colorless and cloudy
Specific Gravity	1.2
Foam Characteristic	None

### NFPA Hazard Rating

HEALTH	1
FLAMMABILITY	0
INSTABILITY	0

### Degree of Hazard:

4-Very High
3-High
2-Moderate
1-Slight
0-Insignificant

## Packaging, Handling and Storage:

Size	Pkg	Dimensions (LxWxH)	Weight
1-qt	12/cs	14" x 10.5" x 10"	28 lbs.

Store in an area that is well ventilated. For best results, use within 12 months.
