

SCUM AWAY

Drain line Cleaner & Deodorizer Maintains Condensate Drain Lines

Scum Away solves the primary cause of condensate drain line blockages, which is caused primarily by the intrusion of slime, scale, algae and other organics that form in condensate drain pans. This restorative & preventative maintenance treatment is safe for all types of HVAC drain pans and drain lines. Scum Away is a revolutionary combination of chemicals and deodorizers designed to clean scum, slime and other accumulations in air-conditioning condensate drain lines, ice machine drain lines, drinking water fountain drains and humidification systems. Scum Away will eliminate clogged drains and obstructed dehumidifier drains. Foul odors associated with standing water and plugged drains will also be alleviated. Simply pour the recommended amount of Scum Away onto your drain pan on a monthly basis, to safeguard your system and provide preventative maintenance.

- **Will Eliminate Clogged Condensate Drains**
- **Removes Scum, Slime, Algae Deposits**
- **Prevents Foul Odors From Forming**
- **Excellent preventative product**
- **pH Neutral, Non- Corrosive**
- **Non-Toxic - Economical to use**
- **Keeps Drain Pans Clean and Free-Flowing**

Applications:

- **Air Conditioner Condensate Pans & Drain Lines**
- **Drinking Water Fountain Drains**
- **Ice Machine Drain Lines**
- **Dehumidifier Systems - Water Tanks**
- **Any Non-Potable Water Retention Area**
