SCUM AWAY

Condensate Drain Line Treatment

Scum Away is a liquid version of our condensate drain line treatment tablets and slime strips.

Condensate drain pan cleaning becomes an easy task with our liquid Scum Away, that will quickly dissolve scum, slime, mildew, mold, grease and other accumulations in air-conditioning condensate drain pans.

Scum Away provides a positive, long-lasting and aggressive cleaning action, to remove built up sludge and ultimately eliminate plugged condensate drain lines and stale water odors.

This unique liquid version allows for application in ice machines, water fountains and humidification systems, as they all require treatment to avoid slime & algae and odors.

- Eliminate clogged drain lines
- Effective for use in ice machines, water fountains and humidification systems
- Will prevent overflow damage and unnecessary maintenance repairs
- Safe to use – does not release any chlorine or other noxious or toxic fumes
- Biodegradable – Non-Flammable

Available in cases of (12 x 16 oz.)

Chemex Industries, Inc.
