

HEPA PRO 6BB

Introducing a battery operated HEPA vacuum that can be worn comfortably as a backpack and provides 90 minutes of peak vacuum power before recharging. The model HEPAPro 6BB offers 6-quart recovery capacity and the ultimate in HEPA filtration and clean-air technology. Don't be misguided by competitive backpack vacuums claiming to have HEPA filtration. This backpack is a genuine "HEPA Vacuum" so it has a HEPA filter that is individually tested and certified at a minimum efficiency of 99.97% at .3 microns. In addition, the HEPA filter, secondary cloth pre-filter and disposable paper filter bag are all drop-in, modular components on the intake side of the motor. This is your "fail-safe" guarantee to prevent any accidental bypass of dangerous dust that may escape from the vacuum and contaminate the air. The model HEPAPro 6BB is approved for EPA RRP regulations for removal of lead based paint particles. It also meets OSHA requirements for reducing permissible levels of crystalline silica on construction and restoration jobsites. The HEPAPro 6BB is ideal for advanced cleaning in schools, hospitals and other public areas. Advanced lithium ion battery technology makes the HEPAPro 6BB ideal for applications where using electrical outlets are not practical.

FEATURES:

- Two (2) Lithium-ion batteries: Rechargeable and cable free. Operator allowed to work large areas without stopping to locate an outlet. Each battery provides 45 minutes of run time. Only three (3) hours required to fully charge the battery.
- Two-stage 36V 600 Watt vacuum motor provides 80CFM and 70-inches of waterlift.
- Four-stage filtration prevents premature clogging and ensures absolute clean air exhaust.
- Padded harness with handle allows for free arm movement, enhancing cleaning performance while minimizing stress to the operator's body.
- Lightweight, polyethylene body resists impacts and withstands years of professional use.

TECHNICAL SPECIFICATIONS:

Item Number:	125-1255-23	Construction:	Blow-molded polyethylene body, padded nylon harness.
Vacuum Motor:	36 V, 600 watt with internal thermal protection	On/Off Switch:	Hip mounted, cord switch box assembly
Suction/Airflow:	70" waterlift, 80 CFM	Height:	22"
Noise Level:	65 decibels	Machine Weight:	10 lbs. (w/battery 15 lbs.)
Filtration:	4-stage including HEPA filter, drop-in cloth bag, six quart two-ply disposable paper filter bag (item #122-3214-14)	Shipping Weight:	33 lbs.
Bag Capacity:	6 quart	Warranty:	1 year

HEPA PRO 6BB

Battery Pack: Mounts on hip & thigh for improved mobility, less operator fatigue. Long lasting battery life.

On-Off Switch: Hip mounted for easy access.

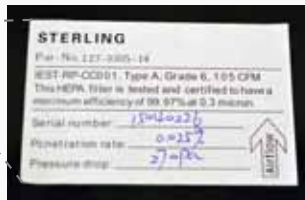

TOOL KIT:

- 122-3012-14 Crushproof Hose 5' x 1.5" Dia
- 122-3025-14-1 Alum Wand 5' Double Bend 2-Piece 1.5" Dia
- 122-3030-14 Round Dusting Brush 1.5" Dia
- 122-3044-14 Multi-Surface Floor Tool 14" x 1.5"
- 122-3060-14 Crevice Tool 17" x 1.5" Dia
- 122-3070-14 Upholstery Tool 1.5" Dia

TESTED & CERTIFIED HEPA FILTER:

The HEPA Pro 6BB is equipped with a "Fail-Safe" HEPA filter system that protects against discharge or bypass of dangerous dust particles from the vacuum cleaner. This modular, drop-in and removable HEPA filter, cloth pre-filter and disposable paper bag, all seal together tightly under suction. There is zero risk of the operator incorrectly installing the HEPA filter and accidentally causing bypass, thus contaminating the air with dangerous particles. Also, in the event of a failure, by rupture or the like, of the cloth filter bag or disposable paper bag, the HEPA filter is the final filter and certified to trap any particles before they can be released into the air.

The HEPA filter is individually tested and certified to be 99.97% efficient at .3 microns according to IEST-RP-CC001 test requirement.

Disposable Paper Bag:
Part # 122-3226-14

Cloth Bag:
Part # 122-3229-14

HEPA Filter:
Part # 127-3320-14
