

CYBERSAFE SOLUTIONS

# HIPAA Protect

## Cybersecurity & HIPAA Compliance Program

The Fastest and Easiest Way to HIPAA Compliance to Protect Your Organization

### HIPAA Protect

#### Cybersecurity & HIPAA Compliance Program

Cybersafe Solutions HIPAA Compliance program includes:

- **HIPAA, MACRA & Meaningful Use Risk Assessment**  
The HIPAA Security Rule requires that covered entities and their business associates conduct a risk assessment of their healthcare organization.
- **Implement Policies & Procedures**  
Implement internal policies and procedures that assure patients' health information is properly accessed and protected.
- **HIPAA Security & Privacy Training for All Employees**  
Minimize potential attacks by educating and testing your entire user base on modern and evolving cyber risks.
- **Web-Based Compliance Portal**  
Access secure online HIPAA compliance tools, templates, videos, and resources.
- **HIPAA Compliance Audit Support**  
HIPAA-related information and recorded data act as an audit "book of evidence."

#### HIPAA Non-compliance Leads To Costly Data Breaches Security Weaknesses:

- Lack of an enterprise-wide security risk assessment
- Lack of adequate minimum access controls
- Insufficient procedures to regularly review information system activity
- Failure to identify and respond to suspected or known security incidents

#### Indirect Costs

Loss of existing and prospective patients/clients due to reputational damage

#### Direct Costs

Detection and escalation costs, forensics investigative activities, crisis management activities

#### Notification Costs

IT activities to create contact database, determination of regulatory requirements, postage, etc.

#### Post Data Breach Costs

Help desk activities, inbound communications from customers, identity protection services, etc.

## Cybersafe Threat Hunting Use Cases
