

TESTIMONIALS: WHAT LEARNERS SAY ABOUT CELL-ED

Georgina was employed as a housekeeper at a hotel but is currently not working due to COVID-19. "I'm learning a lot now that I am home. I'm taking advantage of the time because I really want to learn English. It's excellent because I can connect anytime. I feel like when I study, I'm not wasting more time not working. I'm getting something done, accomplishing something."

- Georgina, Houston, TX

"I work 13 hours a day in the fields so it is exhausting. Cell-Ed is great because it doesn't feel like I'm studying. It's fun to text back and forth and I'm so proud when I get the right answer."

- Moises, Oregon

"I liked Cell-Ed because I could call any hour I had available. I work different schedules and I called every day about 15 minutes before my shift began."

- Bernardo, New York

"Cell-Ed is a godsend, because I cannot attend classes. I don't have time [to study] because I have three kids. Sometimes, I study in the middle of the night."

- Paola, New York

"I had to stop attending regular classes. Now I only use Cell-ed to study because I have to stay home, I use it anytime I can. I like learning about verbs, and the conversations have helped me to navigate in the community, to know how to say things with the doctor, about directions. I hope you never take it away from me."

- Miguel, New York
