FOR IMMEDIATE RELEASE:

Retailsphere completes primary research on thousands of retail businesses in the District of Columbia.

Innovative software platform helps landlords identify thriving retail businesses in the District of Columbia.

-

Retailsphere, the world's largest database dedicated to the retail ecosystem has completed primary research on all shopping centers, malls, retail businesses, individual retail units, real estate companies, franchisors, franchisees and national brands with operations in the District of Columbia.

The Retailsphere application represents the primary tool available for commercial real estate professional focused on retail. In addition to a database of all entities involved in retail in the state of Maryland, Retailsphere's platform includes tools that assist landlords in finding and marketing to the ideal tenants for their spaces.

The Retailsphere database for the Washington, DC includes almost 5,000 individual units representing over 7.8 million square feet of space in 154 centers and malls. Find over 130 national brands and 1,112 key decision maker contacts in the Retailsphere platform.

About Retailsphere: Founded in 2018, Retailsphere provides more comprehensive retailer data and retail related news than any other platform available in the industry. Retailsphere's retailer profiles give shopping center owners, leasing executives, and commercial real estate brokers the data they need to analyze the market and make strategic business decisions when approaching potential tenants.
