FOR IMMEDIATE RELEASE:

## **Retailsphere completes research of ALL national brands in the United States**

*Retailsphere completes primary research on hundreds of national brands across the United States.*

-

Retailsphere, the world's largest database dedicated to the retail ecosystem, has completed primary research on all national brands across the United States. In addition to powerful information on sizes, unit locations, financial statements, and credit ratings; Retailsphere data also includes information on tens of thousands of key contacts involved in site selection and real estate decisions.

The Retailsphere application represents the primary tool available for commercial real estate professionals focused on the retail segment of commercial real estate. In addition to a database of all national brands across the United States, Retailsphere's platform includes tools to assist landlords find, target and market to tenants thriving in today's challenging retail environment.

The Retailsphere database of national brands includes information on over 400 individual brands, accounting for over 160,000 units. In total, this accounts for over 1 billion square feet of retail space around the country and over 2,200 points of contact for these brands.

**About Retailsphere:** Founded in 2018, Retailsphere provides more comprehensive retailer data and retail related news than any other platform available in the industry. Retailsphere's retailer profiles give shopping center owners, leasing executives, and commercial real estate brokers the data they need to analyze the market and make strategic business decisions when approaching potential tenants.
