

PREVENTATIVE CARE MESSAGING

PROMOTE HEALTHY PATIENT DECISIONS

With our support, you can deliver preventative care communications regarding:

- Health screenings and annual exams
- Wellness appointments
- Immunization initiatives
- Chronic disease management
- General health education and tips

With Stericycle Communication Solutions' messaging solution, you have access to:

EMAIL, VOICE, & TEXT OUTREACH

With our solution, you can deliver highly customized communications to patients, ensuring they show up on time and prepared.

PATIENT-SPECIFIC MESSAGES

Your patients are unique. Our solution delivers the meaningful, personalized, and interactive communications they expect.

STRATEGIC ENGAGEMENT

We partner with you to send preventative messages, creating more effective patient experiences.

INSIGHTFUL REPORTING

Our insightful data, including outreach attempts and appointment results, can help you strategically improve outcomes.

59% of patients believe email and text reminders supporting wellness/prevention are important.¹

32% of Americans want more health messaging.²

¹ Harris Poll, 2016

² Nuance, 2013

SEAMLESS EMAIL, VOICE, & TEXT

Our preventative care messages provide seamless support.

-  EHR and/or practice management system integration
-  Fully HIPAA-compliant
-  Flexible, brand-enhancing communications and patient experience
-  Meet goals and initiatives while increasing patient satisfaction
-  Easily manage the volume of outbound calls and redirected calls with call metering
-  Readily accessible online scheduling capability and live agent support

How it works:

- ✓ Information for patients in need of preventative care transfers to Stericycle system
- ✓ We reach out to patients per your unique parameters and information
- ✓ Patient receives preventative care reminder via email, voice, or text message
- ✓ Patient has option to book an appointment via voice call or easy online scheduling
- ✓ Reminder messages delivered to patient before scheduled appointment
