Wildnote

Buying an Environmental Data Collection App

10 Essential Questions to Help Find the App you Need

☐ Does the software company understand my business?

☐ What kinds of customer support and professional services are available?

☐ Does the mobile app work offline on both Android/iOS, phones and tablets?

☐ Can the software company build features for my specific project needs?

☐ Is it cloud-based or do I have to download software onto my computer?

☐ Do I have to build from scratch, or is there a library of survey forms I can use?

☐ Does it have easy photo management, useful pre-formatted reports, and exact agency exports?

☐ Is the software database scalable and searchable?

☐ How will it integrate with our existing software?

☐ Is it built with the needs of field data collectors, project managers, and decision makers in mind?
