

## A MESSAGE FROM NEVADA DONOR NETWORK REGARDING SIMON KEITH

“As many of you are aware, [Nevada Donor Network](#)’s Chief Operating Officer, Simon Keith, has been waiting to receive another gift of life (after his first lifesaving transplant more than 30 years ago) for several months now. It is with great relief we share that over the weekend he received ‘the call’ and generous gift of a healthy, new heart and kidney. Simon is doing well, but as with any transplant recipient he still has a long journey ahead. Thank you to those who have joined us in rallying around the Keith family these past few months, and we ask that you keep the positivity coming while remaining mindful of their privacy. Please also keep the hero of this story and their courageous family in your thoughts, as this precious gift is the result of their generosity and ability to see hope beyond immense tragedy. We extend our most sincere respect and deepest gratitude to them. It is safe to say Simon understands the magnitude of this gift better than most and will undoubtedly continue to honor both of the heroic donors who have saved him by showing the world what can be made possible in life after transplant. We hope that you will join us today in celebrating Simon and the hero who has given him another chance to continue inspiring the world.”

Joe Ferreira  
President and CEO  
Nevada Donor Network

[#DonateLife](#)

Nevada Donor Network (NDN) is a federally designated 501(c)3 not-for-profit organ procurement organization, also responsible for facilitating tissue and cornea donation in Nevada. Our primary function is coordinate, recover and allocate lifesaving organs and healing tissues for transplantation and research on behalf of our heroic donors. Nevada Donor Network is a member of Donate Life Nevada, a statewide collaboration of agencies committed to motivating Nevada residents to register as organ, eye and tissue donors.
