

# Your Trusted Telehealth & Technology Partner

We are Australia's largest 24x7 telehealth provider for employers and are the experts in absence management, injury management and specialist employment medical services. Our telehealth services are supported by our team of tele-nurses, tele-doctors, tele-physios and tele-psychs, and powered by our specialist technology modules.

## New & Innovative Solutions to Strengthen Your Business Through COVID-19

We recognise that businesses need to pivot quickly in response to COVID-19 and so we have streamlined our telehealth and technology platforms to better support the health and safety of your workforce during this crisis.

“

I just wanted to let you know it's been a good decision to put the Hotline in. Excellent health advice for our team. I would recommend this service to anyone.

Executive General Manager Health & Safety, Energy Industry

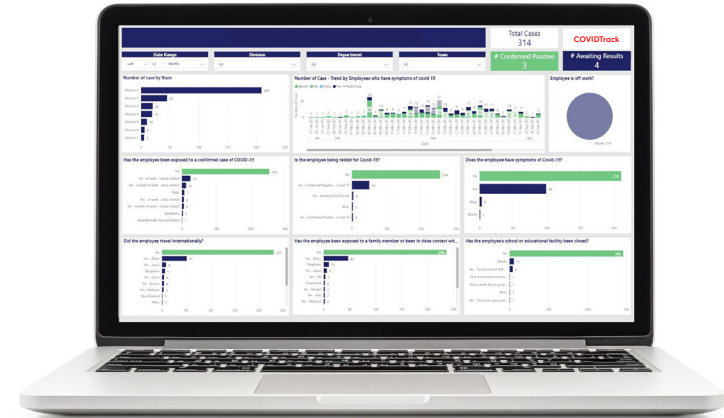

“

The service has been fantastic for our business. It has taken a lot of pressure off our own HR team by fielding enquiries and providing our employees with up to the minute advice and support at such a challenging time.

Injury & Workers Compensation Manager, Transport & Fuel Industry

We have developed a COVID-19 Tracking System which allows employers to create, manage and report COVID-19 cases.

- ✓ Create cases & employee self report
- ✓ Case monitoring & follow-up actions
- ✓ Daily/weekly case reporting
- ✓ Dashboard analytics powered by embedded PowerBI
