Stock Stand Up Pouches (Clear/Foil)

Clear Material:

KPET12/PE26/LLDPE60

Translation...12 microns clear polyester as the outer layer (for barrier protection)...26 microns for sealing the film or a sealant layer...60 microns of linear low density polyethylene for heat sealing ability (so the bag can be sealed) as well as provide thickness and strength.

Foil Material:

PET12/PE20/AL6/PE20/LLDPE60

Translation...12 microns of polyester...20 microns of polyethylene...6 microns of aluminum foil...20 microns of polyethylene...60 microns of linear low density polyethylene
