

Preferred Vendor Partner

A leader in omni-channel, application-free lending technology, CuneXus provides a unique decision engine that utilizes and processes multiple data streams to generate personalized preapproved loan offers.

Key Benefits for Clients

- Targeted loan preapproval generation based on lender risk tolerance
- Home banking platform integration offering *click-to-accept* loans with no application
- Automated campaign file creation and management into LoansPQ
- Multiple digital member engagement and marketing campaign options
- Elimination of traditional loan applications for non-preapproved offers

Integration

API-based integration that leverages MeridianLink's proprietary technology to facilitate a complex network of interactions providing mature and highly successful cross system functionality.

Agreement & Fees

MeridianLink requires an addendum for the one-time minimum set-up fee with a low annual maintenance for each component of this integration.

CuneXus requires a separate client agreement. Please contact CuneXus directly for pricing options.
