

Preferred Vendor Partner

RateReset offers a digital engagement platform, called KNOCK KNOCK, which delivers retention and acquisition solutions designed to serve a new generation of members.

Key Benefits for Clients

- Digital deferment technology allowing members to defer ("Reset") payments
- Instant preapproval solutions for members and non-members resulting in preapproved applications in LoansPQ
- Digital member and non-member engagement.
- Direct application submission to your LPQ decision rules
- Share and Loan reset/deferment tools (core specific)

Integration

API-based integration that leverages MeridianLink's proprietary technology to facilitate a complex network of interactions to power two integration components: Direct-to-Core (RESET) and Preapproval with LoansPQ.

Agreement & Fees

MeridianLink requires an addendum for the one-time minimum set-up fee with a low annual maintenance for each component of this integration.

RateReset requires a separate client agreement. Please contact RateReset directly for pricing options. (ratereset.com)

Implementation Timeline

RateReset and their dedicated team manage and coordinate all necessary project level details. Timelines vary based on project scope determined by RateReset.

Rapid deployment may be available from this vendor.

For more information about adding access to this vendor to LoansPQ, contact your MeridianLink Partner Success Manager or send your request to salesupport@meridianlink.com.
