

# Fund Update

**Kiwi Wealth  
Managed Funds**

for the quarter ended 30 September 2018

## Kiwi Wealth Managed Funds - Growth Fund

This fund update was first made publicly available on 29 October 2018

### What is the purpose of this update?

This document tells you how the Kiwi Wealth Managed Funds Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Kiwi Wealth Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Growth Fund is invested up to 100% in shares and other growth assets, with the remainder invested in cash and fixed interest assets. Its objective is to exceed the returns you would receive from investing 85% of your funds in global shares and 15% of your funds in New Zealand fixed interest assets and cash through active asset allocation and active selection of shares and other growth assets, fixed interest and cash assets.

Total value of the fund	\$2,411,231
The date the fund started	31 July 2018

### What are the risks of investing?

Risk indicator for the Growth Fund: <sup>1</sup>

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

	Past year
<b>Annual return</b> <i>(after deductions for charges and tax)</i>	Not applicable
<b>Annual return</b> <i>(after deductions for charges but before tax)</i>	Not applicable
Market index annual return <i>(reflects no deduction for charges and tax)</i>	13.53%

The market index return is the strategic asset allocation weighted benchmark index return, where the benchmark indices are defined in the Statement of Investment Policy and Objectives. Additional information about the market index is available in the Statement of Investment Policy and Objectives which is available on the Disclose register at <https://disclose-register.companiesoffice.govt.nz/>.

### What fees are investors charged?

Investors in the Growth Fund are charged fund charges. Based on the PDS dated 29 May 2018, these are expected to be:

	% of net asset value
<b>Total fund charges</b>	<b>1.08%</b>
<i>Which are made up of -</i>	
<b>Total management and administration charges</b>	<b>0.90%</b>
Including -	
Manager's basic fee	0.90%
Other management and administration charges <sup>2</sup>	0.18%
<b>Total performance-based fees</b>	<b>0.00%</b>
	<b>Dollar amount per investor</b>
<b>Other charges</b>	\$0.00

An estimate has been used to calculate the underlying fund fees which are included in 'Other management and administration charges'. Further information on fees can be found in the Kiwi Wealth Managed Funds PDS.

Investors are also charged individual action fees for specific actions or decisions (for example, a buy/sell spread applies to each contribution/withdrawal). See the Kiwi Wealth Managed Funds PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Alice had \$10,000 in the fund at the start of the year<sup>3</sup> and did not make any further contributions. At the end of the year<sup>3</sup>, Alice received a return after fund charges were deducted of \$1,353 (that is 13.53% of her initial \$10,000). Alice also paid \$0.00 in other charges. This gives Alice a total return of \$1,353 for the year<sup>3</sup>.

### What does the fund invest in?

This shows the types of assets that the fund invests in.<sup>4</sup>

#### Actual investment mix

#### Target investment mix

This shows the mix of assets that the fund generally intends to invest in.

Cash and cash equivalents	7.50%
New Zealand fixed interest	7.50%

10	Man AHL Pure Momentum Limited	United States	Other		1.08%

The top 10 investments make up 22.82% of the fund.

### Currency hedging

Currency hedging can apply to some of the asset classes this fund invests in. The level of currency hedging for foreign assets is managed between 0% and 100% with a target of 70% and may change over time depending on the Manager's view of the relative strength (or weakness) of the New Zealand dollar. Additional information about the hedging policy can be found in the Statement of Investment Policy and Objectives which is available on the Disclose scheme register at <https://disclose-register.companiesoffice.govt.nz>.

## Key personnel

## Further information

You can also obtain this information, the PDS for the Kiwi Wealth Managed Funds and some additional information from the offer register at <https://disclose-register.companiesoffice.govt.nz/>.

## Notes

1. Market index returns as well as the fund's actual returns have been used to fill in the risk indicator, as this fund has not yet been in operation for five years. Market index returns have been used from 1 October 2013 to 31 July 2018 and actual returns after that. As a result of those returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.
2. An estimate has been used to calculate the underlying fund fees which are included in 'Other management and administration charges'. Underlying fund fees have been estimated using end of month holdings and the total expense ratio (TER) stated in the underlying funds' disclosure statements.
3. As the fund started on 31 July 2018, an annual return for the Fund for the year ended 30 September 2018 is not available. For the purposes of the investor example, the return is the actual return of the market index for the period 1 October 2017 to 30 September 2018 with no deductions for charges and tax.
4. Other is comprised of alternative investments: investments that fall outside the main asset classes and can include absolute return funds and commodity investments.
