

PowerMate®

Customer Testimonials:

"I've spent hundreds of thousands of dollars on equipment, and have NEVER had a customer support call after a sale. Usually, I'm the one calling the company to complain about the product because it doesn't do what they said it would. It's a real pleasure to be able to speak about a product such as PowerMate® in positive terms."

*Mr. Allan Williams
Operations Manager, Indikon, MA*

"I would like to thank you and all the people at PowerMate® for immediate sales, service and training. Your customer service is superior! The two mechanical stair climbers we just recently purchased, models LE-1 and M-1 were put to work the moment they arrived. These two models meet all of our needs moving heavy items such as boilers, furnaces, water heaters and air conditioning equipment....This was by far the best investment we made this year!"

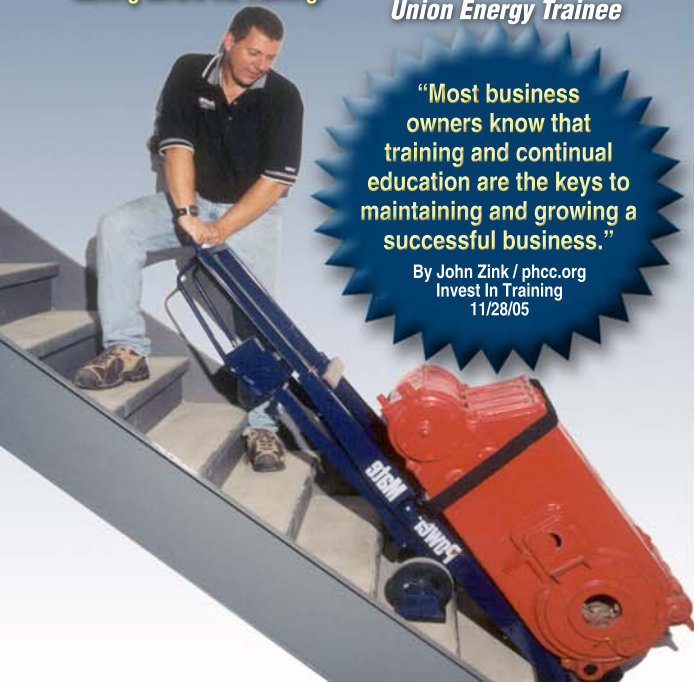

*Mr. Michael Ritchie
Link Mechanical Service Inc.*

"The PowerMate® training proved to me the machine can be operated in tight spaces where I previously thought it could not. I learned how to use the pivot pad and stair extension. I now have the confidence in the machine, I was lacking before the training."

Union Energy Trainee

"Most business owners know that training and continual education are the keys to maintaining and growing a successful business."
