

AKS ACCELERATOR APPLICATION MIGRATION

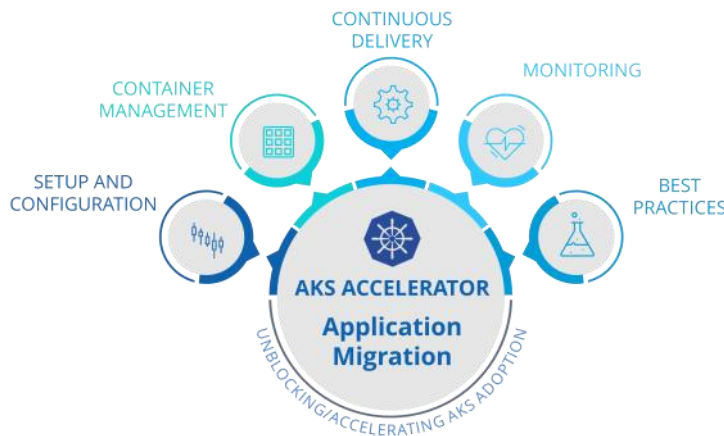

A better way

Move your application to the cloud and into AKS. This consultant-led and turnkey solution provides the migration, implementation, and automation of a fully functional Dev/Test solution in AKS for a single workload. Save months of learnings, trial and error, and costly false starts while quickly migrating a containerized app — complete with a container practice review and expert AKS implementation.

InCycle's AKS App Migration Accelerator provides **key components required for a rapid and successful workload migration and implementation**. Every component is designed to accelerate the migration from on premises Kubernetes to a cloud solution with AKS. Once your AKS cluster is stood up, our team will help you take an existing containerized application and get it operationalized in AKS.

TURNKEY MIGRATION

MOVE FAST— AND SAVE!

Moving from on premises to a fully operationalized Kubernetes implementation on AKS is challenging, but doesn't have to be a long and expensive project. Migrate quickly and reduce your team burden by leveraging a proven migration strategy.

MODERN PRACTICES

Migrating from on premises Kubernetes to AKS introduces new opportunities and practices. You need proven, robust practices and built-in automation to realize a reliable and easy to manage Kubernetes environment.

EXPERT GUIDANCE

Azure introduces a host of new technologies, concepts and implementation considerations. Our teams use Azure and AKS everyday and are skilled and experienced cloud architects and coaches.

QUICK & EFFICIENT

Achieve your migration in a fraction of the time. Our approach surgical and 100% focused on value and success. Reduce project risk and finish on time and on budget. Our engagements are fixed cost!
