

AKS ACCELERATOR CONTAINER MODERNIZATION ANALYSIS & STRATEGY

A better way

Are containers and AKS right for you? How would you know? Containers, Kubernetes and AKS are complex, but they don't have to be. Application containerization has many benefits — but for some workloads, they aren't a silver bullet. With expert and contextual guidance upfront, you can move forward with confidence. Give your team the foundation, strategy and roadmap for success.

InCycle's AKS Analysis & Strategy Accelerator provides all the **key components required to develop and define an a sound implementation plan**. This engagement uniquely combines a portfolio review, cloud adoption readiness analysis, and in-depth interviews with technical and business stakeholders. The goal is to fast-track your team onto the right path with an optimized containerization strategy and roadmap.

STRATEGY & ROADMAP

START RIGHT

Using a container is easy. But the more containers you have, the more challenging and difficult it is to develop and implement the right containerization strategy — for your business.

CONTAINERS & CONTEXT

Containers can reduce infrastructure cost, enhance scalability, provide better security and have many other advantages. But to realize the benefits, your strategy has to be contextual to your application and business of goals.

BEST STRATEGY?

Not all applications are right for containers. Containers may make a simple applications more complex. Other times, a PaaS strategy is a better fit. An analysis aligns workloads with best strategy.

ACTIONABLE!

Beyond key concepts, a strategy and roadmap includes an architecture that considers management of resources, application performance, reliability, and portability. Taking all guess work out of implementation!

AKS ACCELERATOR PHASES

1-DISCOVERY

- Identify business drivers
- Introduce/review containerization concepts
- Review process and governance
- Discover app portfolio

2-ANALYSIS

- Identify key process and governance improvements
- Analyze app portfolio and prepare recommendations
- Establish roadmap
- Review/update draft recommendations

3-PRESENTATION

- Present the findings to key stakeholders
- Adjust/finalize strategy and roadmap
- Review/present results with decision makers
- Plan next steps

"We had ideas, options and opportunity. We just didn't know which way to go. Every time we looked at the problem, we had a different answer. InCycle's Analysis and Strategy Accelerator helped us make sense of it all".
