

SMARTVID FOR COVID-19 SAFETY

4 EASY STEPS TO SAFER JOBSITES

1. CONNECT YOUR SITES

Enable remote site walks anywhere, anytime

- Integrate all project photos using Smartvid's direct connections to Procore, BIM 360, Oracle Aconex, Box, Egnyte, StructionSite, & more
- Or, let us provide inexpensive cameras that connect via WiFi or cellular

2. AUTOMATE OBSERVATIONS

Log, track and correct all observations

- Automatically detect workers not social distancing, missing face masks, gloves, & PPE
- Identify other leading indicators:
 - Slip, Trip & Fall Hazards
 - Excavation & Trench Work
 - Housekeeping, & more

3. GET ALERTS & REPORTING

Generate automatic alerts for COVID-19 risks

- Auto-generate daily reports to help managers reward COVID-19 safety practices
- Trigger alerts to identify areas where mitigation efforts can be improved

4. MEASURE COMPANY & PROJECT TRENDS

Dashboards track key safety measures

- Risk Scores summarize COVID-19 & other safety practices
- Identify the highest risk projects
- Compare project safety performance over time
