

**COVID-19 Response:**

# Rapidly Deployable Network for Pop-Up Healthcare

## We're Here to Help Provide Secure, Reliable LTE Connectivity for Devices and Workers at Temporary Sites

### Complete, Rapid-Deploy Emergency Network Response

Enterprise-Class  
Wireless Router

Centralized  
Management

Works with  
Nationwide Public  
Safety Networks

24x7  
Support

Medical professionals and emergency responders on the front lines of the COVID-19 pandemic are doing vital work — and they're doing it anywhere and everywhere. From tents in parking lots to open buildings, hotels and other locations, these emergency response teams need mission-critical cellular and on-site networks to keep essential technology, such as laptops, tablets, printers and medical equipment, always connected and operational.

Pop-up testing, quarantine, and healthcare delivery sites require rapidly deployable, reliable, and secure wireless network solutions that provide:

- Immediate shipping
- Rapid, zero-IT deployment
- Support for nationwide public safety networks
- On-site Wi-Fi and Ethernet connectivity
- Enterprise-class security capabilities
- Centralized management

# Everything You Need in One Solution

It's easy to get started and connected. Select your best-fit solution based on network size and price, and we'll do the rest. Within 24 hours, you'll receive everything you need to get a new location up and running on the network.

- Streamlined ordering process with rapid shipping to your location in the field
- SIM can be included (US only)
- All accessories, including cellular and Wi-Fi antennas
- Optional battery power (IBR600C only)
- Router registered with NetCloud, enabling zero-touch installation with no need for on-site IT support
- 24x7 customer support available when you need it

IBR600C

**Rugged, enterprise hotspot for small teams with up to 15 Wi-Fi and 2 Ethernet devices**

### Enterprise Hotspot

Compact | Secure | Cloud-Managed

Router is included in a 3-year NetCloud Plan

E300-C18B
