

NextDay CONNECT

powered by  MOBILECORP

NextDay Connect is an agile, assured network connectivity solution, suitable for interim or permanent access, for enterprise or business-grade customers. Simple and swift to deploy, no capital expenditure, utilising Telstra's 4G network.

USE CASES

- COVID-19 Working from Home Kit
- Sites waiting for nbn connection
- ISDN migrations waiting on Telstra cabling
- Transient sites such as road and rail projects
- Branches, factories, warehouses, showrooms
- Construction sites
- Events, pop-up stores, short term retail outlets, Retail outlets with poor connectivity such as shopping malls
- Remote sites and off-shore sites such as mining, defence, oil rigs

SOLUTION SUMMARY

Utilising state of the art 4G routers, owned or leased, and managed by MobileCorp to assist with fast deployment. Turnaround time executed in days rather than months. Failover redundancy through use of dual SIM technology.

MOBILECORP MANAGED SERVICE

- Site audit
- Network environment design
- Infrastructure build and testing
- Monthly managed service including monitoring, remote diagnosis and management, retrieve/replace, licensing, business intelligence insights and connectivity reporting, support service desk

CHARGED ON YOUR MONTHLY TELSTRA BILL
