## Our Mission

*To provide support with first class service and top technical people that exceeds the expectations of our customers.*

Hoffman & Hoffman created a mechanical service division known as “Hoffman Mechanical Solutions, Inc.” (HMS) based out of our Columbia, SC office in January of 2013.

Since inception, HMS has grown rapidly and we currently have sixty-four (64) HVAC professionals on staff. Fifty-one (51) individuals work in the field supporting our customers, three (3) Service Sales Representatives and the remaining ten (10) provide administrative support.

Hoffman Mechanical Solutions, Inc.’s business philosophy is to employ and empower talented HVAC Service Technician Professionals. Hoffman believes having the best people and providing them with all the necessary resources (training, tools, equipment, etc.) is the key to delivering premier customer service and growing our business. This philosophy has proven effective and has resulted in significant growth since inception just over 4 years ago.

Combined, our 55 service professionals have a total of 1222 years of field experience which is an average of 22.2 years per employee. Hoffman’s staff is well credentialed and has the following combined OEM experience:

**Trane = 158 years**  
**York / JCI = 120 years**  
**Daikin Applied/McQuay – 144 years**  
**Daikin VRV = 51 years**  
**Carrier = 29 years**

### Joel Champany – Service Sales Representative

Joel started in the HVAC industry in 1996 after an initial career in manufacturing. Joel spent 20 years at Trane including 7 years as a chiller Service Technician and 13 as a Service Account Manager. His multi-faceted background allows him to provide both strong technical and service sales support to our customers.
