

# MANAGED INCOME FUND

FACT SHEET | Q1 2025

Class A  
KAMAX

Class C  
KAMCX

Class I  
KAMIX

## OBJECTIVE

The Managed Income Fund ("Fund") seeks total return, which consists of income and capital appreciation.

## WHY INVEST

### Risk-Managed Approach to Fixed Income

The Fund is designed to help investors participate actively in fixed income markets while aiming to reduce the risk of drawdown.

### Lower Correlation & Diversification

By dynamically adjusting credit quality and duration in response to market conditions, the Fund has exhibited lower correlations with traditional benchmarks - potentially enhancing overall portfolio diversification and improving risk-adjusted returns.

### Tactical Expertise

Backed by over three decades of experience in data-driven investing.

Past performance does not guarantee future results. Investment return and principal value will fluctuate, so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. To obtain performance data current to the most recent month-end please call (866) 303-8623.

## APPROACH

The Fund employs a systematic, trend-following process designed to recognize and measure consistent and repeating behavioral patterns in the financial markets. We evaluate market conditions daily—shifting into higher-yielding fixed income securities when conditions are favorable, and into U.S. Treasuries or cash equivalents in more defensive environments.

## ABOUT US

At Kensington Asset Management, our strategies are designed to generate steady, above average returns with low volatility and controlled downside exposure, catering to a range of investor needs. Over the course of 40 years and across market cycles, we have proven ourselves as pioneers of systematic investment methodologies – relentlessly defining, refining and evolving our proprietary decision models while intelligently expanding our service set to create both core and complementary portfolio pathways that seek to enhance resilience and optimize risk-adjusted outcomes.

Since 2008, the Managed Income Strategy has delivered compelling risk-adjusted returns throughout various market cycles.

The Managed Income Fund offers the same philosophy, approach, and process as the Managed Income Strategy within a Mutual Fund.

## Disclosures

**This factsheet must be proceeded or accompanied by a prospectus.**

<sup>1</sup>Fund holdings are subject to change at any time and should not be considered a recommendation to buy or sell any security.

**An investor should consider the investment objectives, risks, and charges and expenses of the fund carefully before investing. A prospectus and a summary prospectus which contains this and other information about the fund may be obtained by visiting here:**

**[www.kensingtonassetmanagement.com](http://www.kensingtonassetmanagement.com) or calling (866) 303-8623. The prospectus and the summary prospectus should be read carefully before investing.**

The growth of \$10,000 chart shows a hypothetical \$10,000 buy-and-hold investment in the fund since inception, with reinvested dividends and capital gains, reflecting applicable fees and expenses.

Investors may not invest in an index directly, unlike the Fund's returns, an index does not reflect any fees and expenses.

High portfolio turnover may result in higher transaction costs and higher taxes when Fund shares are held in a taxable (non-qualified) account. Such costs are not reflected in annual Fund operating expenses and may affect the Fund's performance.

Risks specific to the Managed Income Fund are detailed in the prospectus and include Management Risk, Equity Securities Risk, Market Risk, Underlying Funds Risks, Non-Diversification Risk, Small and Mid-Capitalization Companies Risk, Turnover Risk, U.S. Government Securities Risk and Models and Data Risk, Derivatives Risk, Futures Contract Risk, Short Sale Risk, Leverage Risk.

Diversification does not assure a profit nor protect loss in a declining market.

Kensington Asset Management, LLC ("KAM") is the adviser to the Managed Income Fund, distributed by Quasar Distributors, LLC ("Quasar"). KAM is not affiliated with Quasar.

## Glossary

**Average Effective Duration:** Measures the sensitivity of a bond fund's price to changes in interest rates. It is calculated as the weighted average of the durations of the individual bonds in the fund.

**Bloomberg U.S. Aggregate Bond Index:** An unmanaged index comprised of US Investment-grade, fixed rate bond market securities, including government agency, corporate and mortgage-backed securities. Index returns assume reinvestment of dividends.

**Correlation:** A measure of investment risk that quantifies the degree to which a fund's performance tracks the performance of a benchmark.

**Standard Deviation:** A statistical measure of the volatility of the fund's returns. The larger the standard deviation is, the greater the volatility of return.

**Risk-On:** The portfolio is exposed to high yielding fixed income securities. | **Risk-Off:** The portfolio is exposed to cash, cash equivalents, or U.S. Treasury securities.

**Maximum Drawdown:** A measure of the maximum loss from a peak to a trough of a portfolio or index, before a new peak is attained.
