+ Bob Williams

JANUARY 2020

Our Approach

We believe a thoughtfully designed ecosystem supports employee wellbeing by providing individuals and groups a range of destinations and technologies within the workplace that support the ways people create. By considering design, materiality and uncompromising performance - for the employee, for the organization and for designers & decision makers - employees and organizations can unlock their promise.

Mitchell Gold + Bob Williams & Steelcase

In addition to investing in our own inspiring spaces portfolio, we recognize that more and more organizations acknowledge the value of creating inspiring places unique to their culture and brand and want more solutions across a palette of postures and an array of aesthetics. Not only are their people desperately seeking spaces to escape the monotony of their day, re-search shows that these spaces build trust and develop deeper relationships between peers.

Just as we seek choice to furnish our homes, choice is key to creating informal spaces where people want to work. To enrich our portfolio, we have partnered with a diverse network of organizations around the world, en-riching our own offering and promising greater value to Steelcase customers.

Steelcase now offers a collection of Mitchell Gold + Bob Williams products throughout North America. Mitchell Gold + Bob Williams is based in Taylorsville, North Carolina and is known for classic modern home furnishings and “bringing comfort to all.” Their collection adds to an already extensive Steelcase portfolio, offering greater choice and reducing the complexity of delivering projects through consolidated Steelcase distribution serviced by the largest dealer network in the industry. In addition to access to its acclaimed furniture, lighting, rugs and accessories portfolio, designers and clients will be able to specify over 50 Designtex patterns in our preferred COM program to create amazing spaces.
