

Think Outside the Box Inside

People love the open workplace but demand better privacy and spaces for solitude. Office pods are becoming the superhero solution to consistent problems such as noise, distraction and lack of privacy. And customers are looking to add these spaces quickly and affordably.

SnapCab, a Steelcase partner, answers that call with quiet stand-alone offices that are simple to install, move and customize. With SnapCab Pod, convenience is at the ready. Enjoy a comfortable booth to answer calls, collaborate with others or rejuvenate without totally getting away.

SnapCab Has It All

Safe and secure. SnapCab Pods are certified for installation in seismic zones plus they are UL/ULC listed – meeting stringent standards for stability, mechanical strength, safety, fire resistance and lighting, as well as many smoke and burn indices for materials. SnapCab is a CARB Phase 2 compliant manufacturer focused on reducing formaldehyde emissions.

High quality. SnapCab Pods are built to support high-traffic use with longevity in mind. Quality is achieved through the pods' robust, heavy-gauge aluminum structural frame, patented interlocking panels, heavy-duty casters, tempered glass front, sound-blocking framed door, and motion sensing lights and fans.

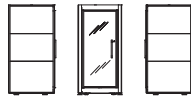

Simple to move. Reconfigure your office as often as needed. Built on casters, SnapCab Pods are highly mobile for creating a new layout or making adjustments to an existing space.

Simple to install. Installation of your pod is fast – think half a day or less – thanks to its modular construction, clear labeling and plug-and-play electrical connection.

Unique experience. Take your pick to find your place. SnapCab Pods are versatile enough for you to concentrate and work in solitude or collaborate with your colleagues – offering plenty of room inside. Settle in and stay awhile. Spread out and accomplish your to-do list. SnapCab Pods are spacious and comfortable, with thoughtful amenities like quiet ventilation to ensure constant air flow, LED lighting for consistent illumination and an occupancy sensor that keeps lighting and fans on only when needed. And stay productive by taking notes or displaying doodles in a pod that's decked out with a Corning® Gorilla® Glass markerboard.

STATEMENT OF LINE

SnapCab Pod S

Exterior dimensions: 43.5" x 46"
Exterior height: 91"
Interior dimensions: 37.5" x 40"
