Personal Storage with Extendable Privacy

Steelcase High Density Storage offers ample organizational space with the added benefit of expandable privacy.

It is designed to meet the storage needs of modern workers, whether they have their own workstation or are just touching down for the day. Plus, it delivers efficiency for organizations by maximizing the footprint while minimizing investment.

Claim your space

High Density Storage features a slide-out interior for user control over the physical space – providing storage while creating a boundary and a visual cue not to disturb.

Its three different interior configurations support traditional storage of work items, as well as make room for bags, coats and other personal items. Select from a variety of sizes, features and finishes, as well as a wide range of freestanding, panel-based and worksurface application options.
