## Productivity + Wellbeing

Workers spend upward of seven hours each day viewing screens. As mobile devices continue to evolve and shrink, it's challenging to find ergonomic viewing solutions that suit everyone. CF Series monitor arms enhance wellbeing and increase productivity by elevating up to six monitors, offering flexible supports for laptops and tablets, and giving workers choice and control over how they work.

## Personalized Monitor Display

For single, dual or triple monitors—displayed side by side or stacked—the CF Series arms secure screens in the optimal position, giving workers total access to a range of information without sacrificing wellbeing. Bring monitors closer for detailed work or move them farther away with the touch of a hand, without altering the height or angle of the screens.

IM#: 17-0078707

### ADAPTABLE SUPPORT

Easily adapt any workspace to fit varied workstyles with the Laptop Holder or Universal Laptop/Tablet Holder. And with modular extenders, workers go from viewing one to up to six monitors effortlessly.

### SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

**Research and insights direct our path.** It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

**Innovative products and solutions result.** In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
