DUAL-ADJUSTABILITY

With a wide range of motion, users can swivel, tilt and adjust the height of two individual monitors to find the position that works best for them—reducing discomfort while increasing usable workspace.

Wellbeing + Technology

Workers spend seven hours each day* in front of computers, often leading to eyestrain, back pain and fatigue. Designed to display screens at optimal heights, FYI and FYI Dual Monitor Arms adjust quickly and easily to accommodate any posture, increasing comfort and wellbeing in the workplace.

Designed and engineered to accurately position monitors for every user, regardless of height or posture, FYI provides 360° upper arm rotation, 30° tilt, and 90° rotation for portrait or landscape display, and holds monitors weighing 5-20 lbs. with ease.

IM#: 11-0001425 | SM: C-CLAMP BRACKET (ARCTIC WHITE)

FYI's single optional C-clamp provides sturdy support and integrated cable management. Wires and cables route on either side of the arm for a clean, organized desktop.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
