EXPECT MORE QUALITY BUILT, DURABLE TABLES

I love my tables! I have two of them, one for the studio and one to travel with. My first one was shipped overseas twice and is still going strong!
- Lisa, California

I started massage school in August of 2001, fresh out of high school and eager to follow my dream. We didn't have much money, but my mom had secretly saved up for 3 years to buy me the best massage table she could afford. Together, we chose my Custom Craftworks Athena table, and chose the additions we wanted so it would be the perfect table.

HANDS FREE ELECTRIC LIFT TABLES

Available in Basic, Lift Back and Deluxe

Controlling the height of your table has never been easier than with our new Hands Free Foot Bar Control!

Allows manual therapists to move freely around the surface of the table without losing contact with their client. Simply push up gently with the top of your toe to lower the table and step down to raise the table to just the right height for your treatment. The heavy duty steel construction is extremely durable yet visually appealing. No more tripping or rolling over foot pedals and wires. No more reaching and stretching to reach the pedal.

This amazing feature is a must for small spaces. The easy to operate caster system makes it a breeze to move around the office when needed.

Education

Why Use
**Massage
Therapy?**

Download eBOOK | INFOGRAPHIC

Massage therapy is one of the most natural and instinctive means of relieving pain and discomfort. Massage therapy is often overlooked and thought of as an indulgence, when it really should be thought of as preventative medicine.

DOWNLOAD | DIGGING INTO TRIGGER POINTS
[eBook] [Infographic] By: Steve Jurch, MA, ATC, LMT

“What’s that knot and why does it hurt so much when you press on it?” If you are a manual therapist, that is a question you have probably heard of while spending time doing soft tissue work. This ebook “digs into” the main points you need to know about trigger points!

**Hospital
Massage**

Massage therapists find it very rewarding to work with clients to alleviate pain from all types of conditions. Koni Sims, CIMT, CSMT, CLT of Sanford Health Hospital dissects massage therapy in the hospital setting and how offering massage therapy in the hospital benefits patients and other healthcare providers alike.

..... EXPECT MORE QUALITY

I bought my Athena from my massage school in my second trimester of classes. It's held up over 15 years of hard use. I do outcall massage, so it's been opened and closed and shoved in and out of my car an average of 15-20 times a week for 15 years! I'm a Custom Craftworks massage therapist for life! - Heather, Arizona

I bought this table in massage school in 1997...My table provided me along with my hands exactly what I needed to get on my feet...It is one of the most well made items I've ever purchased. Thank you for making such amazing products.
Aloha! - Rachel, Hawaii

I have had two extra wide Athena tables used daily by thousands of clients for over 15 years. It never ceases to amaze me that these tables have stood the test of time. For a company that is open 70 hours a week, our tables are the most important asset we have. Thank you Custom Craftworks!
