Washing Instructions:

Wash your flannel sheets in cold water on the gentle cycle. Washing them on gentle is extremely important because this cycle uses less motion causing less friction. Add one cup of white vinegar to the rinse cycle (no detergent). Adding vinegar will allow the fiber to expand that makes them soft, which helps to preserve the color keeping them from fading and looking dingy over time. *If using a front loading machine, use the extra water setting.

Tumble dry on warm or medium heat on a gentle setting or remove covers from dryer when they are slightly damp. Don't use dryer sheets, as this can cause undue friction that causes the flannel to pill over time.
