

# Create space and simplicity in your business with our Growth Expander System™.

This results-focused process uses a mix of automation, delegation and proven efficiency strategies to help you reach your goals more quickly. It's easy to get started!

HOW WE HELP

## 1 DISCOVER

### DISCOVERY SESSION

This 1:1 call identifies your key leverage areas & core pain points (what you want to get rid of doing!), and is used to design a customized support solution to meet your unique needs.

### INFO GATHERING

After the call, a scope of work is created, client agreement is sent, and we gather key info about your business.

### TEAM DESIGN

Your preferences are collected, and we put together a right-fit team to support you.

## 2 DEVELOP

### LAUNCH STRATEGY SESSION

This 1 hour video kickoff call is used to introduce your team, develop a leverage strategy, brainstorm technology and determine goals and priorities.

### CREATE THE ACTION PLAN

Next, the team builds a customized strategic plan which creates alignment around your goals, priorities and everyone's next best steps to achieve results.

### SYNC / ORGANIZE TECH

Whether you need a better solution designed, or have functional tech in place and need us to sync in, we address and deploy best-fit technology.

## 3 DEPLOY

### DEPLOY DAILY SUPPORT

This is where delegation comes to life and results-abound! Our team plugs in as your dedicated support resource to help execute your tasks and priorities each day.

### PROCESS DOCUMENTATION

As they work, our team is trained to identify, document, delegate and automate repeatable tasks and processes in your business to support scale.

### ONGOING STRATEGY

Throughout our work together, our team is held accountable to executing against your Action Plan and meets to refresh the delegation strategy as needed.

## WHY DELEGATE SOLUTIONS?

**Great support that creates real impact and growth for your business is about more than just having someone to delegate to.** Task-based delegation can only get you so far, as it still relies on YOU to identify and manage the delegation. This is where bottlenecks and frustration set in for most entrepreneurs who wind up over capacity again, even though they've "handed stuff off."

**Strategic delegation focuses on thinking through key leverage points for you and your team** that (1) stem from your key goals and priorities and (2) capture repeatable processes in your business to increase scale. That approach to delegation coupled with reliable, proactive support is what really creates leverage for you and your team.

This is **Delegate Solutions' Strategic Support.™** Our unique approach to administrative support means that as you grow, you'll never need to find, manage or train a support resource again!

## EXPERIENCE THE POWER OF DELEGATE SOLUTIONS

*"I plan to do more with my team. They have great aptitude, a willingness to step up, make suggestions and always operate with honesty and integrity."*

-PAUL I.

*"The team is providing value daily; keeping us on track, and holding us accountable to our priorities."*

-SHERI S

*"I came to you looking for a virtual assistant and what I got are members of my team, working very closely with our Head of Operations as we build the process and stability for our ideas. Had I got what I was looking for, I can't imagine I'd have them working with us in this fashion."*

-DOUG D.
