

# Analyze (Step 6)

*Analyze data in detail at key points in the program.*

Complete a copy of this sheet at the end of the program and at other key points.

For each metric, spend time digging into the data to find explanations and points of interest.

Metric	Target Value	Actual Value	<i>Analysis notes. Why is the metric value what it is? Is there much variation when you drill down into the data? Are there any interesting outliers? Are there any lessons to learn for future projects?</i>
