

ARE YOU UP FOR A CHALLENGE?

WANT TO JOIN A TEAM OF AMAZING, SMART PEOPLE AND PUT YOUR SKILLS TO WORK?

Whatever the size of our customer's fleet, the number of its distribution centres, or the nature of the routes, Conundra solves the logistic challenges - improving efficiency straight away.

With Conundra's world record-breaking OptiFlow routing software, we achieve daily cost reductions. Designed for the most complex distribution puzzles, we know that no two cases are the same. Conundra will adapt OptiFlow to the problem - not the other way around - in order to save money. That's what we do.

For the expansion of our fast growing team we are currently looking for:

BUSINESS INTELLIGENCE CONSULTANT

Your responsibilities

- You are responsible for building, implementing and supporting BI solutions.
- You manage your projects to meet identified business needs, acquiring and utilizing the necessary resources and skills, within agreed parameters of cost, timescales, and quality.
- You participate in testing and documenting the delivered solutions.
- You manage the internal & external expectations in relation to the projects.

Desired Skills & experience

- You hold a Master's degree in Business Engineering, Computer Science or equivalent.
- You have profound knowledge of SQL, SQL Server Management Studio, Visual studio and ETL processes (SSIS) & cubes (SSAS).
- You are able to manage several medium-sized projects in parallel.
- You understand the needs of both users, experts and management.
- You are highly analytic and service minded.
- You have excellent communication skills, oral and written.
- You are a team player.

Att. Veerle Immegeers

Our offer

- You will play a responsible role in a high-level technical team.
- You will enjoy an open and friendly working atmosphere.
- You will create high standard applications that are used intensively.
- You will have a competitive salary, a large set of extra-legal advantages and get the opportunity to invest in yourself.
- You will be part of a dynamic, ambitious and fast growing company.

Conundra has only one focus: distribution optimization.

This enables our team to provide the solution which our customers need, starting with the OptiFlow solution. We solve any problem in three steps: crack the puzzle, monitor cost savings on a daily basis and improve through self-learning. We strive to excel in our business and to stand out from the crowd. We never let our guard down, and will always put the effort into go the extra mile.
