

# 5 VIRTUAL TRAINING LAB USES

Launch your learning into the **CLOUD**

## SOFTWARE TRAINING

Learners gain hands-on experience with software applications resulting in more efficient knowledge transfer.

## REMOTE LEARNING

Participants can log in from anywhere with an internet connection—no special equipment or IT support needed.

## CUSTOM & SECURE ENVIRONMENT

VTL occurs in a branded portal with custom URL with no risk to client's network security.

## MANY INDUSTRY APPLICATIONS

Lab clients include range of sectors: Software, Cyber-security, IT, Financial, Engineering, Education—and more!

## CUSTOMER TRAINING

Instructors can easily train by sharing a secure URL with customers who access with unique username & password.
