

FOR IMMEDIATE RELEASE

Corindus to Present at Ladenburg Thalmann 2018 Healthcare Conference

Waltham, MA – September 17, 2018 – Corindus Vascular Robotics, Inc. [NYSE American: CVRS], a leading developer of precision vascular robotics, announced today that Mark Toland, President and Chief Executive Officer, will present at the Ladenburg Thalmann 2018 Healthcare Conference as follows:

Date: Tuesday, October 2, 2018
Time: 4:00pm EDT
Location: Sofitel New York, New York
Webcast: <http://wsw.com/webcast/ladenburg4/cvrs/>

The presentation will be webcast live at the aforementioned time, and archived for 30 days thereafter, via the company's website at investors.corindus.com, under the News & Events Section.

About Corindus Vascular Robotics

Corindus Vascular Robotics, Inc. is a global technology leader in robotic-assisted vascular interventions. The company's CorPath® System is the first FDA-cleared medical device to bring robotic precision to percutaneous coronary and percutaneous vascular procedures. During the procedure, the interventional cardiologist sits at a radiation-shielded workstation to advance guide catheters, stents, and guidewires with millimeter-by-millimeter precision. The workstation allows the physician greater control and the freedom from wearing heavy lead protective equipment that causes musculoskeletal injuries. CorPath GRX is the second generation robotic-assisted PCI technology offering enhancements to the platform by adding important key upgrades that increase precision, improve workflow, and extend the capabilities and range of procedures that can be performed robotically. With the CorPath System, Corindus Vascular Robotics brings robotic precision to interventional procedures to help optimize clinical outcomes and minimize the costs associated with complications of improper stent placement during manual procedures. Corindus stands behind its product with its unique \$1,000 hospital credit "One Stent Program." For additional information, visit www.corindus.com, and follow @CorindusInc.
