Tax Technology Online Courses

WHAT IS DIA?

DIA (Digital Intelligence Assistant) is your dedicated tax and technology search and indexing tool. It will help you to:

- Stay up-to-date on the latest developments in tax + technology
- Gain expert insights on tax transformation projects
- Discover cutting edge technology
- Make better decisions in your technology choices and learn from past mistakes on tax technology transformation
- Cross-functionally share, collect and discuss relevant challenges for your company

YOUR BENEFITS

TAX ACCOUNTANTS

Learn how technology can improve your workflow and allow you to focus on the most challenging aspects of your role. Learn what skills you need to acquire to step-up and lead tax technology projects.

TAX MANAGERS/DIRECTORS

Learn how to effectively oversee tax technology implementation by knowing which areas should be clearly defined and the pitfalls to avoid.

HEADS OF TAX

Learn how technologies are available for you to effectively spot and manage risk. Discover how tax authorities are using technology to target their audits.
