

PRE-CAST PANEL CHAIR

PC 65/75 ROCKET

ROCKET

PANEL CHAIR

LARGE REO SADDLE

OPTIMUM CONCRETE FLOW

“What I love about your chairs is the low visibility feet - it makes my finished product look heaps better.”
– Dan, Precast Yard

The features of our **PRE-CAST PANEL CHAIR 65/75 ROCKET**

The PC65/75 ROCKET Panel Chair is a 2nd generation chair introduced by Castle NZ and has been designed to support single layered mesh or bar up to 25mm Diameter. Featuring a wide leg arch for optimum concrete flow and low visibility feet design enables minimal exposure, the chairs are coloured a light grey to match the concrete. Recommended for use in tilt-up, precast panels beams, suspended decks and Insitu beam installations. These chairs are batch tested and meet the AS/NZS 2425:2015 Standards for bar chairs in reinforced concrete.

Tip:

The clip mechanism allows the chair to swing in a vertical position when lowering the mesh into form. Great!

- Low visibility feet design
- Fits up to 25mm bar size
- Clip mechanism allows the chair to swing into a vertical position when lowering the mesh into form.
- Stackable design.

TECHNICAL CHARACTERISTICS

Code	PC65/75
Cover	65 & 75mm
Load rated	140kg
Diameter	70mm
Colour	Grey
Bag Quantity	150 units
Bag Weight	3.1kg
Pallet Quantity	6,000 units
Pallet Weight	135kg
Pallet Cubic Area (m3)	1.4m3
Test Standard	AS/NZS 2425:2015
H2S Resistance	A1 - Excellent*
Material	Polypropylene (PP)

*Chemical Effect; Excellent. Satisfactory to 72°F (22°C)

EVERYDAY APPLICATION

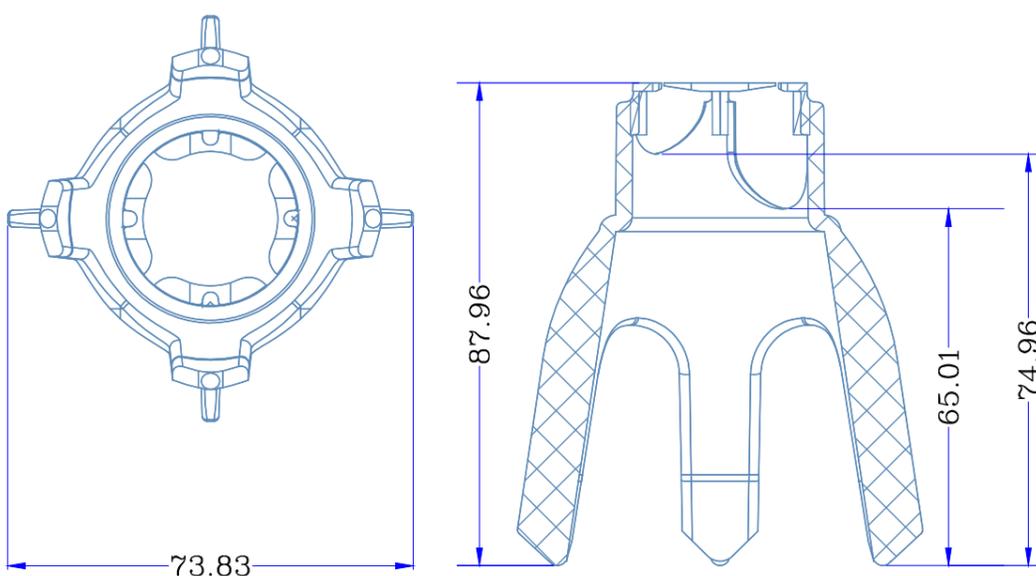

- Stack 2x to achieve 90/100mm cover.
- Stack 3x to acheive 115/125mm cover.

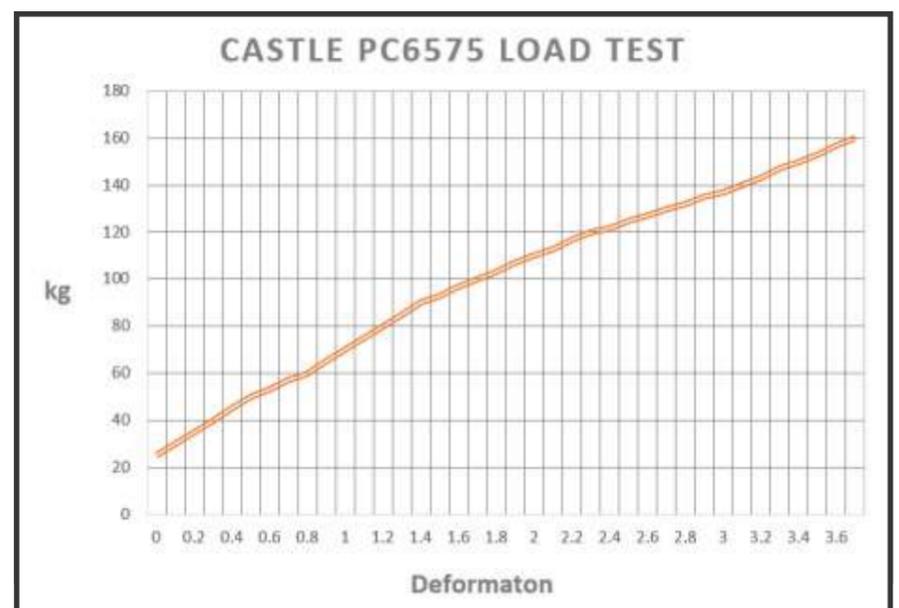

- Stack on Castle 150/160 chair to achieve heights 175mm and above.
