

3L Training

Master Trainer Laura Klubert

What is 3L?

3L is our company mission to impact the lives of students thought of as **L**east likely to succeed, **L**ast in line at recess, **L**ost in the system. We've made it our personal mission to impact the children who need us the most, and we are doing this through Action Based Learning! The 3L training is for all K12 educators to stand with us in our mission and learn strategies and teaching methods to make an impact on students - specifically the 3L students. If you are an educator working with disadvantaged students, this training is a **MUST!**

How Do I Know if this training is for me?

Do you have students who..... have difficulty sitting still, do you have students who exhibit off task behaviors? Does your school need to raise test scores? Are you looking for opportunities to increase learning and decrease off task behavior? If so, don't want to miss this.

How is this Training different from other ABL trainings?

This is not a program, but a paradigm shift in thinking and teaching. 3L training is designed to assist and support you as an educator to develop a better understanding of your students, particularly those that leave you with your hands in the air, "I've tried everything! What now?!". Understanding the complexities of poverty and the behaviors that are often associated will enable you to identify the issue and use appropriate strategies to reduce most common misbehaviors. Leave this training with a positive and proactive approach to improving your classroom climate!

Agenda

Monday 9-4pm

Understanding Complexities of Poverty

Learning Foundations

Problems and Solutions

ABL strategies (embedded throughout training, movement with purpose)

Trainer Bio

Laura Klubert is a former middle and HS science teacher, counselor, and Prevention and Safe School Specialist serving Alief ISD in Houston, TX for 30 years. She has a B.S in regular and special education and a Master's degree in Educational Psychology. As a teacher and counselor, she worked primarily on alternative campuses. Most of her career as a Prevention Specialist at a district level provided classroom management coaching and support to 10+ campuses, administrators and teachers. She also provided ongoing professional development training to staff, students, and community. She was instrumental in implementing ABL districtwide, Alief ISD currently ranks as one of the largest and most successful Action Based Learning districts in the nation. She has had tremendous training with Eric Jensen and others who specialize in brain science, poverty and the brain and social/emotional learning. As an ABL master trainer since 2013, Klubert is an experienced and polished presenter on topics of classroom management, Action Based Learning, brain based strategies, poverty, team building, high engagement strategies and building meaningful relationships. She has presented staff trainings over the past 17 years at a district, state and national level. Klubert is an active advocate and consultant for Action Based Learning, and Safe and Civil Schools, and continues to train educators nationwide to fulfill her personal mission of impacting the lives of students that need it the most. Her high energy, passion, humor and commitment that "all students can learn" and knowledge in brain science, makes her presentations, A MUST SEE!
