

ACTION BASED LEARNING 3 Day TRAININGS

Action Based Learning and Kinesthetic Classrooms invite passionate teachers, principals, administrators, and health professionals, to attend our National Training Event! Fulfill your passion and purpose and change the way we teach our children! Every school and every educator has the same dream for their students: Well behaved, better engaged, more attentive students- Use the latest research to make education more effective. Brain science shows that if a child is sitting all day, they are missing out on vital movements to increase brain function and activity. This training is highly recommended for anyone who wants to become a game-changer in the world of children's health and education.

Hosted By Kinesthetic Classroom National Presenter, Mike Kuczala, coauthor the Corwin Bestseller and Association of Educational Publishers' Distinguished Achievement Award nominated, The Kinesthetic Classroom: Teaching and Learning through Movement, a **book and philosophy that has changed the view of teaching and learning around the world.** Mike's 2nd book, Training in Motion: How to Use Movement to Create an Engaging and Effective Learning Environment, has changed the way educators teach across the country.

Jean Blaydes Moize is one of the most dynamic and inspirational presenters on the educational scene today, one of the few "don't miss" trainers in the brain based field. She combines high-level presentations with groundbreaking content to create workshops that are truly topnotch.

Who Attends?

Teachers, admin, principals, OT/PT, Program Coordinators, After School Facilities, YMCA's, Health Departments

Why Attend?

I want to transform my classroom, I want to learn how to better impact these children. I need motivation, I want to renew my passion and purpose in what I do. I want to change the world. I want to meet other people just like myself. I want direction and hands on training from the best. I am ready to take my good school to a great school. I am ready to go from a good teacher, to a great teacher.

Agenda

Why Action Based Learning?
Filling Developmental Gaps
