Purpose:

Specifically in the areas of science, technology, engineering, and mathematics (STEM), the environment, job training, and **literacy**

Programs should be:

- Innovative and creative that propose untried methods which ultimately may result in providing solutions to the complex educational concerns currently facing the American society.
- Broad in scope, intent, impact, and outreach.
- Possess a high potential for success with a relatively low incidence of duplication of effort (i.e. other organizations administering the same programs).
- Dedicated to improving the human condition of all mankind.
- Operate from a position of financial and administrative soundness.
- In urgent need of funding from a priority basis (not necessarily financial need); i.e., the relative importance of the program or project to the public.

Eligibility to apply:

Nonprofit charitable organizations classified as a 501(c) (3) public charity by the Internal Revenue Service, or a public school district, private/public elementary and secondary schools as listed by the U.S. Department of Education's National Center for Education Statistics (NCES).
