

867 Boomerboard

Action Based Learning stations give your students an advantage to learn! Each product is designed to help students become more engaged, better behaved and

What is the Boomer Board?

The Boomerboard is a fun tool for students to experience both the physical and neurological benefits of jumping. The Boomer Board aids in the improvement of endurance, rhythm, core strength and body awareness.

The Boomerboard is ideal for restless students, test taking anxiety, fidgeters, and students who have trouble listening and paying attention in class.

Crossing the Midline

Cross Lateralization

- ✓ Aids in placing words on a page
- ✓ Reading from left to right
- ✓ Writing patterns in a sequence
- ✓ Assists in decoding and comprehension
- ✓ Crossing the motor cortex helps to get ideas to the paper.

Balance

Spatial Orientation

- ✓ Integrating both hemispheres of the brain is imperative to learning.
- ✓ Balance activities aid the brain in anchoring information, improved memory retention and retrieval, and combining many skills for higher level learning.

Cardiovascular

Heart Health

- ✓ Aids the body in delivering fuel to the brain
- ✓ The brain is dependent on the heart to supply its fuel through our blood supply
- ✓ Oxygen and glucose are fuel for the brain, when we get the blood pumping we are feeding our brains.

Physical Fitness

Strength & Flexibility

- ✓ Strength and endurance concepts put the brain and body into balance for optimal learning.
- ✓ Allows oxygen to flow freely, supplying fuel to the brain.
- ✓ Muscular strength in the legs encourages the flow of BDNF, the “miracle gro” for the brain.

Quick energy release for restless students in the classroom!

- ✓ Silent
- ✓ Non-distracting motion
- ✓ Allows for a quick reprieve from the traditional classroom.

Equipment Specifications		Equipment Use	
Category	Kinesthetic Classroom Model 865 Boomerboard
