

# NATURE THEME WALL SET

## List of components and ideas for installation

### Number Rounds x 10 (7"x7")

Create a fun number line or even math facts with these bright colorful numbers!

### Start/Finish Frogs x 2 (9"x9")

These are at the start and finish! Place these frogs where you want your students to begin and then where you want them to end.

### Motivational Frogs x 5 (10"x8")

These frogs just keep the fun going, they are along for moral support! Place all throughout your course to inspire and make your students smile!

### Froggie Foot Prints x 20 sets (5"x5")

These are where the fun really is - there are sets of footprints that allow you to place one set on the ground, and the other set on the wall. Place them in fun, wacky ways that get your students moving, and hopping down the hallway!

There is no right or wrong way to layout this fun hallway set! Be creative!! We love to see what your hallways look like!! Take a picture and post to social media.

Use **#actionbasedlearning** AND **#hallwayabl**  
Make sure you tag your school too!

# APPLICATION INSTRUCTIONS

Step 1: Cut out each element

You will need to cut out each element around the outside of the decal.

Step 2: Clean the surface that you want to apply to very well and allow to dry

Step 3: Use a finger nail and separate the decal from the backing and slowly pull decal all the way off

Step 4: carefully lay one side of the decal down on the surface first and use a credit card or something similar to apply pressure to the decal and slowly work your way to the other end. As you are using your applicator you will need to pull the other side taught, to lessen the amount of possible air bubbles.

For the larger decals it is helpful to have someone help, that way one person can be pulling one side taught, while the other person is moving your applicator of choice and applying pressure to the decal.
