# Mortgage Business Intelligence

**Mortgage BI transforms your company's data into rich visuals for you to collect and organize so you can focus on what matters to you.**

Mortgage BI is a cloud-based business analytics service that gives you a single pane view of your most critical business data. Monitor the health of your mortgage business using a live dashboard, create rich interactive reports with Mortgage BI Desktop, and access your data on the go with native Mortgage BI Mobile apps.

**All your data, wherever it is**
Loan Origination Software, Excel spreadsheets, cloud services, streaming data, and on-premises databases — no matter where your data lives or what form it's in, you get a holistic view of the key metrics for your business.

**Be informed: always real-time**
Instantly know when your business needs your attention with real-time Power BI dashboards. Solve problems as they occur and seize opportunities as soon as they arise.

**Ask questions, get answers**
Imagine asking "What were last year's sales by FHA streamline?" and getting a stunning, interactive visualization as an answer. With Power BI, you type questions in natural language and get the right charts and graphs as your answer.

**Curated content, just for your organization**
Create and publish content packs to your branch or your entire organization. Your content packs include dashboards, reports, and datasets that provide every user with a personalized view of their volume, units and revenue.

**End Chaos: Everyone on the same page.**
Empower your team to make quick, confident decisions with a single view of your business. Mortgage BI Groups lets you collaborate with key stakeholders to ensure that everyone uses the right data.

**Make data-driven decisions, from anywhere**
Keep on top of your data no matter where you are. With touch-enabled native apps for Windows, iOS, and Android, you can access all your data wherever you go.
